

VIPs Dubai

A homepage and about page for a Dubai company formation firm

The service: All-inclusive Dubai company formation: plan, licence, company, corporate bank account and residence visas.

The reader: Wealthy Europeans and Russians worried about inflation, failing banks, energy shortages and war.

The goal: Book a free consultation, backed by a money-back guarantee.

Spec piece. Names, numbers and testimonials are illustrative.

Build a second base in Dubai, so your family's future never rests on one country

We set up your Dubai company, business bank account and family visas for you. If we don't deliver what we promised, you get your money back.

Everything you've built sits in one place

You probably read the news over breakfast, and lately it's been harder to enjoy the coffee. Prices keep climbing, another bank is under pressure, and there's talk of a hard winter for energy.

None of it is your doing, but all of it touches what you've built.

Your savings, your company and your children's future sit in the same country, so every bad decision made there lands on all three at once. And all the while, inflation takes a little of what you've saved every year.

Why so many families are choosing Dubai as their second base

Spreading what you have across two countries is the oldest kind of safety, and Dubai makes it simple. The dirham is pegged to the US dollar, and a Dubai company and residence visa give you:

- 0% personal income tax
- 0% corporate tax on the first AED 375,000 of profit each year, and 9% above that
- A safe city with direct flights to most of Europe

Around 9,800 millionaires were expected to move to the UAE in 2025, many of them to protect what one London founder called "the proceeds of a lifetime's work."

With a residence visa, your family can live in Dubai full time. Or you can keep your home in Europe, as long as you visit Dubai at least once every six months to keep the visa active.

Three steps, and we handle every one

1. **A free, private consultation.** A consultant gets to know you and your business, and answers every question.
2. **The right plan and licence.** We prepare your business plan and choose a licence that matches what you actually do. Banks check the licence closely, so this step decides the account.
3. **Your company, bank account and visas.** We form the company, open your corporate bank account and arrange residence visas for you and your family. You make the decisions, the paperwork is ours, and the whole setup usually takes around eight weeks.

And if we don't deliver, the risk is ours

If we don't deliver what we promised, you get your money back, and that includes the bank account. We're a young firm, so we'd rather prove ourselves than ask you to take us on trust.

Image: client photo

"We wanted a second base, not a new life. They set up the company, the bank account and our family's visas, and walked us through every step before we signed anything."

Thomas R., business owner, Austria

"Is this all above board?"

Yes. Everything is set up openly and by the book.

Your home country's tax rules still apply to you, so we'll tell you when it's time to speak to a tax adviser there.

One question worth asking today

If your home country had a very bad year, how much of what you've built would go down with it? If the honest answer is "most of it," a free, private call is the place to start.

Alternate homepage headlines

1. Your Dubai company, bank account and visas, set up for you, with your money back if we don't deliver
2. Keep part of what you've built in Dubai, set up for you from start to finish

About VIPs Dubai

A young firm that backs every service with a money-back guarantee.

VIPs Dubai started with a simple idea: moving part of your life abroad should feel like being looked after, not like a paperwork marathon.

Image: photo of the founders

Our founders, Daniel Weber and Anna Sokolova, moved their own families and businesses to Dubai in 2021 and learned every step the slow way. Now we do that part for you.

We form your company, open your personal and business bank accounts, and sort out visas for your family if you want them. We can do it all in English, German or Russian.

We're new, and we know you have no reason to trust us yet. That's why every service comes with the same promise: if we don't deliver what we promised, you get your money back.

Every client starts with a free, private consultation. By the end, you'll know whether Dubai is right for you at all.

Notes for the client

- Keep the guarantee wording identical everywhere: "If we don't deliver what we promised, you get your money back."
- The founders (Daniel Weber and Anna Sokolova, moved in 2021), the languages, the eight-week timeline and Thomas R. are illustrative. Replace them with real ones.
- The tax figures and the six-month visa rule were checked on 12 October 2026. Re-check both before publishing, since they can change.
- The 9,800 millionaires figure was Henley & Partners' forecast for 2025. Henley hasn't published a 2026 number yet, only that the UAE is expected to stay the top destination. Update it when they do.
- The plan to add real estate, car rental and health insurance is left off the About page for length, because it's about the firm rather than the reader. If you'd like it back, one short line fits at the end: "Company formation is where we begin, and more services will follow."
- Claims like "no tax at all", "total privacy" or protection from authorities at home are left out on purpose. They're outdated or legally risky, and careful buyers distrust them.
